PROJECTS

PhiBonacci Solutions, Web Design
Features a sleek, responsive frontend design that enhances user experience across all devices. Developed with modern aesthetics and interactive elements, the site reflects the company's innovative approach and professional identity.

HR 58 Admin Panel, Frontend Development
Crafted an HTML and CSS-based admin panel tailored to meet the specific requirements of administrators. Empowering administrators with comprehensive control, the panel efficiently manages a wide array of key features.

Inter India Group, Frontend Development
Engineered the Inter India Group website using HTML, CSS, and Bootstrap for responsive design. Implemented media queries for seamless adaptability across devices, creating a dynamic showcase of the group's ethos and offerings.

Tech58 Website, Frontend Development
I've carefully designed every part of the Tech58 website to make it easy and enjoyable to use. I've used Bootstrap to make sure the site works well and looks good on all devices. This reflects my dedication to making high-quality digital experiences for our users.

Savory Seasons, Final Year Project
Developed Savory Seasons, a user-friendly catering website with a clean UI, responsive design, and engaging layout featuring high-quality images and clear navigation.
